

Finally, there's a better way to track employee time.

It's every manager's dream. Know which people are working on what projects — and how much time they're spending.

Seems simple, but keeping accurate timesheets is a challenge for most businesses. That's why companies around the world turn to ClickTime for our fast, reliable timesheet and expense application.

Tired of Late Timesheets?

Our time entry interface is sleek and simple-to-use, neatly customized to accurately capture your employee time. With built-in features like ClickTime's **Dashboard Display™**, you'll instantly see who hasn't turned in their timesheet. And you won't have to lift a finger either—our **Automated Reminders** send delinquent employees an email reminder, which includes a link to their delinquent days!

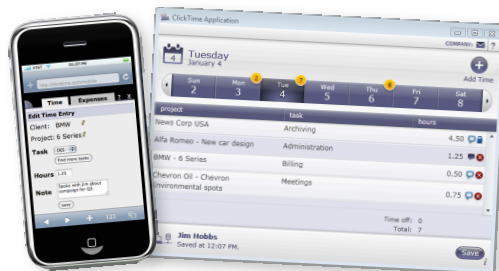

No Servers, No Headaches

There's nothing to install. You access ClickTime from any internet connection using any standard browser. It works with Windows, Macintosh, and Linux. So now you can enter your time while you're still at the client site, from an airport kiosk, or even at home.

ClickTime Web Timesheet simply cuts costs—no server, no database, no support staff.

On the Road? Offline?

Take ClickTime to-go. Access the smartphone-optimized version of **ClickTime Mobile™** at no extra cost! No internet access? No problem. The **ClickTime Desktop Application™** lets you store and sync time at your convenience.

Who's Using ClickTime?

More than 1,000 companies in over 30 countries trust ClickTime Web Timesheet to record their time and expenses. We've helped companies reduce overhead costs, bridge communication gaps, assess resource allocation, and transition smoothly into our timesheet solution.

Chevron Oil	Chevron Environr	23	23
Chevron Oil	Chevron TV spot	160	
Coca Cola	Coca Cola Projec		
Adidas Shoes	Copa Mundial		
Macromedia	Design		

Serious Savings

Because there's no server to maintain and no software to install, the total cost of ClickTime is usually thousands less than competing options.

	ClickTime Web (50 users)	Journyx † (50 users)
Dedicated Server and Database (Hardware)	\$ 0	\$ 1,200
Dedicated Server & OS Extras (Licenses)	\$ 0	\$ 999
I.T. Labor, Maintenance, & Backups (3 hrs. / mo. @ \$160 / hr.)	\$ 0	\$ 11,520
Electricity Costs (Server and Database)	\$ 0	\$ 250
Software Acquisition (Including Startup Fees)	\$ 9,660	\$ 7,950
TOTAL Out-of-Pocket Costs for 2 Years' Usage	\$ 9,660 <i>Just \$8/person/mo.!</i>	\$ 21,919 <i>Over \$18/person/mo.</i>

†Prices as of January 1, 2010 as posted on <http://journyx.com/products/timesheet/price.html>

Expense Tracking

With ClickTime, employees can enter expenses faster and more easily than with typical software. Reports are accessible from any browser, and managers can review and approve expenses with just one click.

checkbox	title	reimbursable
<input type="checkbox"/>	Mike Dunning (2 expense sheets)	
<input type="checkbox"/>	May office expenses	\$121.00
<input type="checkbox"/>	April office expenses	\$28.56
<input type="checkbox"/>	Shannon Graham (1 expense sheet)	
<input type="checkbox"/>	Conference in Phoenix	\$115.50

With integrated Expenses, managers get accurate details, and employees receive swift reimbursement.

Instant Reporting

We provide over 50 instant reports to support the most popular ways to view time and expense data—and with **Report Builder™**, you can develop your own highly-targeted views of employee time data.

Entry Date	Client	Job
1/2/2009	Chevron Oil	Chevron TV spot
1/2/2009	Chevron Oil	Chevron Environmental spots
1/5/2009	Alfa Romeo	New car design
1/5/2009	CBS News	News Corp USA
1/5/2009	Ford Motor Corp	Ford Ranger print campaign
1/5/2009	Adidas Shoes	Barbie Doll Pink Adidas Shoes
1/6/2009	Adidas Shoes	Barbie Doll Pink Adidas Shoes

Report Builder provides a familiar grid interface with options to filter, slice, aggregate and chart your data.
